3 Legal

Right of revocation

You have the right to revoke the membership within 14 days after the establishment of the membership without giving reasons. The right of revocation is to be exercised by informing our club by means of a clear declaration informally, by email, about the decision to revoke the membership.

Consequences of revocation

If you revoke your membership and have already received services from us, you will be charged for the costs you would have incurred as a non-member. The difference between the membership fee already paid and the additional cost must be paid by the owing party within 4 weeks.

I have taken note of the revocation policy.

I have read the statutes and regulations¹ of the club in their current version and agree with them.

I agree that the association stores my personal data and uses it internally according to the privacy policy².
